Farr's City Directory.

The compiler of Farr's City Directory takes pride in presenting it to the people of South Bend as the most complete publication of the kind ever issued here The compiler has had years of experience in this city taking the enumeration for various official purposes, and is confident that no names have been omitted from this volume. The total number of names is, in round numbers, 6,000, which allowing 3½ to a family would give South Bend a population of 21,000. It is safe to say that the population is 20,000. The usual allowance to a family is 4. That is the rule in Chicago and St. Louis, but that rule cannot apply to South Bend, as there are so many young men, and men who are living here without their families, working in the factories, who can represent only themselves in the enumeration. An exact enumeration of every man, woman and child will go above 19,000 and fall less than 100 short of 20,000.

The compiler has put a great deal of work on this his first Directory, and hopes that it will be so useful and reliable a volume that the one for 1884 will be eagerly looked for. If careful, conscientious work will make a directory reliable then this one should be. That has been the sole object of it rather than gain, for the compiler well knows that if his Directory becomes well established it will bring its deserved financial reward.

South Bend.

It will be a matter of pride to South Benders to see the steady and healthy growth of their city as shown by the names in this directory. They represent a population of 20,000, or an average increase of 2,500 a year since the National Census of 1880. With growth in population there has been growth in area, growth in manufactures, growth in educational facilities, and in religion. Nearly a half dozen churches have been added since the census year, fully a score of factories, dwellings by the hundreds, and new school houses have been built or old ones enlarged to give the fullest benefits of the public schools to the children of South Bend. Notre Dame University, which is so near South Bend as to be almost a part and parcel of it, has greatly enlarged its facilities, as has St. Mary's Academy, the two leading Catholic educational institutions of the country, and these, with the new schools established inside the city limits, give South Bend a reputation for educational facilities that no other place in the state possesses. It has manufactories which are the largest of their kind in the world, railroad facilities second to no place of its size in the state, is surrounded by a rich agricultural country, has waterworks, gas, electric lights and other public improvements which larger cities have not—everything in fact to make it one of the largest cities in the state as it is already the largest manufacturing city.

BOILERS.

You hear a great deal about burst boilers but you can set it down as an uncontroverted fact that no boilers built by Jonathan Mathews. at the South Bend Boiler Works, ever burst. He uses only the best iron and it is put together by experienced workmen.

BOOTS AND SHOES.

Alfred Klingel's shoe store is one of the best know in the city for keeping the best goods at the lowest prices. P. E. Newman is not a whit behind in seasonable goods and low prices.

Among nearly a score of meat markets there are none better known than Rockstroh Bros., whose father sold sold meat in this city before they were born. They run this morket in genuine city style, and if any good meat is in the market it will be found at 124 west Washington street. Bert & Johnson are the leading butchers on Michigan street, north-east corner of Jefferson, and Myers & Merriman have a splendid establishment on Main street. Charles J. Schaefer, 131 north Main, is doing a good business.

WAGON, CARRIAGE, BUGGY AND SLEIGH

MANUFACTORY OF

A. COQUILLARD,

COR. OF LAFAYETTE AND WATER STREETS,

—— With the ——

Best Timber,
Best Machinery,
Best Workmen

KNOWN TO THE TRADE HERE OR ELSEWHERE,

Is now prepared to turn out work of the best kind in every respect, and at prices as low as can be made by any other responsible establishment in the West. The WAGONS and CARRIAGES made at this factory have been for years put to the severest practical tests, and have proved to be so perfect as to give the utmost satisfaction, and occasion a greatly increased demand wherever they have been introduced. Much of the Material used in their construction is selected from

2,000 ACRES OF SUPERIOR TIMBER LAND

Bought when prices were low and the choice important, thereby securing not only a high grade of Timber, but considerably reducing the cost of manufacture. All the latest and best improvements and inventions are adopted, and all work is warranted to be at least equal to that of any other concern in the country. South Bend, as is well known, has long been a famous wagon center, which fact has given rise to a healthy competition, one result of which has been the extraordinary perfection of the

Celebrated Coquillard Farm Wagon,

Which has no superiors and but few equals. It is made with THIMBLE SKEINS and IRON AXLES, and combines all the latest improvements, both in style and finish, and embraces all the elements of **Lightness of Draft, Strength, Beauty and Durability.**

The Coquillard Wagon

Has taken many premiums, and by its sterling qualities has compelled a recognition of its eminent adaptation to the Farm, the Plantation, and the Road.

THE LIGHTER VEHICLES

Manufactured by these works have a high reputation, because they are honestly, faithfully, and tastefully made; conform in all things to the latest styles of the trade, and meet the wants of the public. Photographs of prevailing styles will be furnished, or designs will be made to order. No hesitation is felt in giving full assurance of perfect satisfaction to all customers.
